**Replacement of the Church Heating System:** Over the past number of weeks we have had burst pipes in the Church heating system. The plumbing system has now been deemed 'not fit for purpose' due to its age, wear and tear and all has to be replaced as a matter of urgency, pipes, radiators etc. This is going to be a huge expense on the parish. The estimated cost to replace the system is €40,000. We hope that our Allianz insurance will cover some of this cost, however they have informed us that they will only cover repair works to damage caused but will not cover new plumbing and replacement of radiators. Due to this we will have no heat in the Church over the coming weeks until the entire system is replaced. The severity of the water bursts has also meant we have had to turn off the water at the mains which supplies the church, this means that the outside church toilets are also unavailable over the coming weeks. Apologies for any inconvenience caused.
